

Diagnostic Imaging

At Harrison Imaging Centers

What to Expect

Your provider has referred you to Harrison Imaging Centers for an exam. Here is what you can expect next:

1. The referral department at The Doctors Clinic will review your imaging order and initiate any insurance pre-authorization requests. This may take a few days, depending on your insurance company.
2. The Doctors Clinic referral department will then send the order to the scheduling department at Harrison Imaging Centers.
3. The Harrison Imaging schedulers will call you to set up an appointment.

If you have not received a call from Harrison Imaging after several days, or if you have an urgent need, you may contact us at (360) 337-6500.

4. After your exam, results will be sent to your referring provider. Please refer to your provider's follow up instructions.
